COMMITTEE ON
APPROPRIATIONS

The Honorable Rosa L. DeLauro
Chair
House Committee on Appropriations
H-307, The Capitol
Washington, D.C. 20515

The Honorable Kay Granger
Ranking Member
House Committee on Appropriations
1036 Longworth House Office Building
Washington, D.C. 20515

Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the Willoughby-Eastlake Water Pollution Control Center Lakeshore East Equalization Basin project in fiscal year 2022.

The entity to receive funding for this project is the City of Willoughby, located at 1 Public Square, Willoughby, Ohio 44094.

The funding would be used to eliminate Sanitary Sewer Overflows of raw sewage to the East Island area of the lower Chagrin River by providing 1.35 million gallons of raw sewage storage capacity east of the river. To comply with SSO Elimination mandates, monitoring equipment and flow controls will be included to efficiently manage storage capacity. An OEPA mandated Sanitary Sewer Evaluation Study (SSES) completed in 2011 identified measures to be taken in the Willoughby Eastlake Sanitary Sewer system to prevent sewer bypasses and overflows into the environment. The one remaining overflow identified in the study is located at East Island in Eastlake, with a discharge into the Chagrin River in direct proximity to boat dockage and the recreational area of the river.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

David P. Joyce
Member of Congress
